Universal coverage of radioprotection issues

Radioprotection is for more than 40 years the appreciated publication for all the radioprotection participants. This journal publishes articles on all aspects of radiological protection, including non-ionising as well as ionising radiations. Fields of interest range from research, development and theory to operational matters, education and training. There is also a short part especially dedicated to the French readership.

Sections:

- **Review papers** on a scientific, technical or legal subject in the field of radiation protection.
- **Original works** including introduction, materials and methods, results, discussion, conclusion.
- **Notes:** Scientific or technical developments.
- **Advertorial:** Information on new material or software with important technological contribution. The publication of an article in this column will be charged.
- **Letters to the Editor:** Personal opinions or discussions on a published paper. The Editors may submit the text to the person involved and publish the answer in the same issue of the journal.

Why you should publish in *Radioprotection*

The highest scientific review standards: your article is submitted to a scientific committee which brings its skills and its expertise in the selection of manuscripts.

First impact factor for the journal: 0.862 in 2010. This figure is beyond the best journals in this category.

Free alert services by email or RSS feeds each time new articles are published online or cited.

Flexibility: you have the opportunity to publish free of charge all your figures in color in the online version and can also publish supplementary material (moving pictures, large tables, appendixes...).

Copyright Policy: you are free to post your article on your own website or the site of your institute as soon as it is published, providing the source is cited.

Article submission: You can submit your article via our website:
<https://articlestatus.edpsciences.org/is/radiopro/home.php>.
